---

Hi the search engine work's but it give me thise output error:

Notice: Trying to get property of non-object in C:\inetpub\wwwroot\obs\plugins\search\pdfs.searchbot.php on line 62

Any Idea??

Thank's

Hi Nate,

I'm facing the same problem in joomla 1.5....Could you please provide a fix?

Thanks & regards,

---

I have the same problem.

this is the code on line 62

```
$botParams = new mosParameters( $mambot->params );
```

it's joomla 1.0 code. I am not very familiar with it.

hope someone out there can help.

thanks in advance

Thanx for this excellent component...

All is working fine...except that I am getting this error along with the search results

Notice: Trying to get property of non-object in www.joomlapluginssearchdocs.searchbot.php on line 62

line 62 reads this

```
$botParams = new mosParameters( $mambot->params );
```

which is the same as posted by monalona

I will really appreciate if ne one could help me with this.

Than in advance
